

## 2003 TRAINING CALENDAR CEUs

All certified operators must attend approved water and wastewater industry related training in order to acquire Continuing Education Units (CEUs) within a three-year period in order to renew their certification. According to the Water Operator Certification Rules, Section 13.1, and the Rules for Wastewater Works Operators (R317-10-12), CEUs will be required for renewal of certificates according to the following schedule:

<u>Grade Level</u>	<u>CEUs Required in a Three-year Period</u>
I	2
II	2
III	3
IV	3

Operators must acquire sufficient CEUs during the three year certificate life in order to renew their certificates. If any questions arise, or if you would like to review our records of the training you have attended, please call the Division of Drinking Water at (801) 536-4200, or the Division of Water Quality at (801) 538-6146, and we will be glad to talk with you.
